About Me

With over 4 years of experience as a fullstack developer, I've built and worked on a variety of projects from Chennai to Denver, Colorado. I have been working in agile development, closely with the Design, Backend, and QA teams. I have a strong background in web application analysis, development, deployment, and debugging.

Notable Projects

- **Avalara:** API Documentation & developer guides for Avalara's APIs and SDKs using Next.js, React TailwindCSS and Swagger.
- **Edison:** Multiple PMS integrations into Edison's backend using Node.js, Google cloud and Cloud functions
- **Testpress:** Features for validating exams and assignments using Javascript, Tailwind CSS, Python and Django.
- **OroCorp:** An admin app for managing gold loans, agents and customers using React.js, TailwindCSS, Hasura and GraphQL.
